

8:40 Meeting, Thursday, 23 August 1973

1. Interest in Retirement Waves: This week, like last week, has been very slow as regards pre-retirement counseling activities. This is probably the result of employees being on vacations and the general mid-summer slack-off of interest in retirement. Clients still continue to come to Outplacement, however, since they have a higher sense of urgency.
2. Upward Mobility: We assigned four more of the upward mobility group as follows: one to Logistics as a clerk-typist, one to CRS as a records clerk and two to OJCS as card-punch operators. This leaves two more of the original 13 to be assigned. They are still qualifying in typing and will hopefully be assigned within another week.
